

Sample Authorization

Safe fictional document for application demonstration

This document exists only to test the Oracle Red Labs upload, storage, download, and audit workflow. It grants no authority to access, scan, test, or disrupt any real system.

Demonstration parties

Requesting organization: Northwind Logistics (fictional)

Project contact: Jordan Ellis (fictional)

Service: PHANTASM demonstration request

Environment: Local academic database only

Permitted application action

The user may upload this PDF to the local Oracle Red Labs academic application. The application may store the file outside its public directory, calculate a SHA-256 integrity hash, associate the metadata with one engagement, and allow the seeded administrator to download it.

Excluded actions

No network scanning, exploitation, credential use, persistence, lateral movement, data access, security assessment, or contact with a third-party system is authorized. Example domains and IP addresses shown in the application are demonstration text only.

Demonstration window

Start: selected by the presenter at least 24 hours in the future

End: when the local demonstration is complete

Authorized requester	Academic project witness
Jordan Ellis (fictional)	_____
Date: 2026-10-02	Date: _____

DEMONSTRATION DOCUMENT - NOT A REAL SECURITY AUTHORIZATION
